## THE WORLD'S TEN BEST PERENNIALS

### For Rock or Wall Garden

We realize that the 'best' in anything is largely a matter of personal choice and that considered singly one might not agree with us, but considered collectively we believe this list can hardly be surpassed.

We have taken into consideration variety of foliage, habit, time and length of bloom, variety of color and form, floriferousness, and ease of cultivation and from this angle the collection leaves little to be desired.

We cannot substitute any of the items.

# IRIS

## Dwarf Iris

These lovely miniature Iris have no rivals in the early Spring flowers but are only recently attaining the popularity they deserve.

Being dwarfs they are especially desirable for rock garden planting or the edging of beds; their culture is simple, treatment the same as with the taller varieties; they are perfectly hardy and very free blooming. The very complete list we offer gives a full range of color, all have been checked with the American Iris Society list and are guaranteed true to name and color.

## NATIVE VIOLETS

We have made all to little use of our native Violets in our Rock Garden work.

Sturdy in habit, easily raised, with a wide range of form and color, blooming early and late with varied and beautiful foliage they are an ideal rock plant and adaptable to every purpose.

Tho we list but sixty-five varieties of native violets, in our gardens we have one the most extensive collections in the world and we will be glad to correspond with those who may be interested in collecting.

253 - AFFINIS,	much like cuculatta but with light bluish purple flowers with white center.....	.25
701 - ADUNCA,	the Dog Violet, makes wide clumps with small blue flowers, exceptionally fine for the rock garden .....	.25

703 - BECKWITHII,	upper petals violet, lateral white and lower yellow, three parted leaves, very distinct	.35
254 - BLANDA,	low growing, fragrant white flowers	.25
240 - V. BELLIDFOLIA,	a small, tufted alpine with blue flowers, foliage remains green all sum- mer	.35
460 - V. BRITTONIANA,	a beautiful violet native to the Atlantic coast but rapidly becoming ex- tinct, its foliage resembles that of V. Pedata but is longer stemmed, a handsome plant and a very desirable violet	.35
